DominateSense™

Measure, Collect, Analyze, Act

- Sensing and Actuation System
- Temperature, Humidity, Leak, Gas and Light sensing
- Remote Location Environment Monitoring
- Real-Time Alert System

DominateSENSE is a state-of-the-art IoT platform that allows you to assign environmental sensors to assets, materials and even locations. You can define numerous actions to be taken when pre-defined sensor conditions are met. Your sensor data is processed in an immensely fast rate. The results will be at your disposal in the blink of an eye!

Access to your sensor data is an exclusive feature of DominateSENSE. As you push your data, DominateSENSE performs numerous statistical operations and updates the records instantly so your processed data will be available when you need it.

Sensor

- Incredibly Small
- Wireless
- Over 5 years of battery life
- Long transmission range

Gateways

- Wi-Fi + Network
- Cellular
- GPS Enabled
- Wired Sensor Port
- Relay Output Port to act autonomously

Sensor Platform

- Sensor & Alert Setup
- Incident Management
- Corrective Actions
- 5 Years Log History

The application is customizable and easy to setup based on your preference and needs.

These are just the tip of the iceberg for what our Wireless Environment Monitoring can deliver. To learn more, please contact our sales team at sales@dominaterfid.com.
